

St Mary Magdalene C of E Primary School

Headteacher: Miss S Robinson

Maths Workshop Evaluation 3.3.2023

Which topics or aspects of the meeting did you find most interesting or useful?

Slide show very informative. The list of websites and ideas to use were also very helpful.

The list of websites available.

I found it very interesting in every aspect. It was all very useful. I will definitely look on the website for all the links to help and support our family.

Seeing how the children work.

I found that seeing the children working really helped and all the information regarding the websites was good.

All of it!

Different websites besides TT rockstars.

Tips on how to practise maths at home

Expectations throughout the years and the resources available to support at home. Maths is very different to when we were at school, so it was valuable.

Links to apps and resources and ideas for home.

****Seeing maths in action****

Was there any other information that you didn't receive and would like to?

Not related to the workshop in particular but I miss looking at childrens work/books due to parents evening being on line. Learning showcase is nice, but not the same as both parents aren't able to attend.

To be able to push my child to her full potential it would be good to know what to expect in the next few years.

Maybe just more ways of exactly how maths is taught.
